Admission.

Candidates for admission to the Freshman Class are examined in the Grammar of the Latin and Greek Languages, Virgil, Cicero's Select Orations, and Sallust or Cæsar's Commentaries, Arnold's Latin Prose Composition, ten chapters, Xenophon's Anabasis and two Books of Homer's Iliad, Ancient Geography, English Grammar, Arithmetic, Algebra to Quadratic Equations, and two Books of Loomis's Geometry. Real Equivalents will be accepted instead of the text-books named.

Candidates for higher standing are examined in the same, and also in the studies gone over by the class to which they may desire admission.

The stated times for examination are the Tuesday preceding Commencement, and the first day of the following term. But in special cases, candidates may be examined and admitted at other times in the year, excepting that no admission to the Senior Class is allowed later than the beginning of the second term.

Previously to examination, the candidate must exhibit satisfactory testimonials, that he sustains a good moral character. If he has been a member of any other College, he will be expected to present a certificate of regular dismission.

No one can be admitted to the Freshman Class, until he has completed his fourteenth year; and no one to an advanced standing without a corresponding increase of age.

EXERCISES.

There are three regular Recitations or Lectures daily, excepting Wednesday and Saturday, when there are two.

On every Wednesday afternoon, there is a public Exercise in Declamation, in which the classes speak by divisions, and for which they are prepared by private rehearsal before the Professor of Rhetoric or the Instructor in Elocution. Seniors and Juniors deliver original Compositions.

Biblical instruction is given to each class during some portion of every year.

Public worship is attended in the Chapel every Sabbath; and prayers morning and evening. Every Thursday evening there is a religious Lecture by the President, or one of the Professors, which the students are invited, but not required to attend.

EXAMINATIONS.

1. Oral Examinations of all the Classes, at or near the close of each Term, on the studies of the Term.

2. Written examinations of all the Classes, near the close of each year, on the studies of the year.

A record is kept by the Faculty of the attainments of every student, and also of his delinquencies. Information concerning his proficiency and deportment is, when requested, communicated to the parent or guardian.

EXPENSES.

The following are the principal necessary expenses, exclusive of vacations:

Tuition, $15.00 per Term,	$45.00	$45.00
Room Rent from $4.00 to $6.00 per Term,	12.00	18.00
Recitation Rooms, and Ordinary Incidentals, $4.00 per Term	12.00	12.00
Gymnasium, $2.00 per Term,	6.00	6.00
Fuel and Lights, from $10.00 to $15.00,	10.00	15.00
Board from $2.50 per week to $4.50; making per year of *thirty-eight* weeks,	95.00	171.00

The expenses for Room Rent, Fuel and Lights, are estimated on the supposition that two students occupy the same room.

In case of admission to an advanced standing, $5.00 per Term for the previous Terms will be required, unless such standing shall have been attained in another College. This charge is sometimes for special reasons, particularly in case of indigent students, remitted by the Prudential Committee.

There are some expenses which result from taxes voluntarily imposed by the classes or societies. These, and expenses for furniture, stationery, etc., will vary according to circumstances and the character and habits of the student.

In incidental expenses, if the parent or guardian furnishes money, or authorizes the contracting of debts, a student may be very extravagant. To guard against this, parents often deposit funds with some one approved by the Faculty, who, for a moderate compensation, will give particular attention to the pecuniary affairs of the student, and render an account of expenditures.

It is earnestly recommended to all parents and guardians, not to authorize the obtaining of credit, and not to pay debts unauthorized.

PAYMENTS.

The amount of the first Term Bill must be paid by each student on his admission. Each subsequent Term Bill becomes due at the close of the Term for which it is assessed. A bond with satisfactory surety for the payment of all the College Bills must be given by each student to the Treasurer, at the commencement of the Term when he enters.

ASSISTANCE TO BENEFICIARIES.

The regular Term Bills of young men who are preparing for the Christian Ministry, and who need assistance, are chiefly paid from the fund appropriated to that purpose.

SCHOOL KEEPING.

Students are allowed to teach school each year, twelve weeks, including the nearest vacation, if their pecuniary circumstances require it.

LIBRARIES.

The Libraries of the College and Literary Societies contain about 30,000 volumes. The College Library is accessible to all the students, according to rules established by the Library Committee. The Libraries belonging to the two Literary Societies are accessible to the members of the Societies, according to regulations established by themselves.

PHILOSOPHICAL CABINET.

The apparatus for experiments in Natural Philosophy is arranged in No. 3, Chapel Building. It contains many original articles, and by its extent is adapted for a full course of experimental illustration.

THE LAWRENCE ASTRONOMICAL OBSERVATORY.

This is attached to one of the Cabinets of Natural History, and consists of a tower and transit room. The former has a revolving dome containing a fine achromatic telescope mounted equatorially, of nine feet focal length and seven and one-fourth inches in aperture, manufactured by Alvan Clark, Esq., of Cambridgeport. The transit room contains a transit circle, and an astronomical clock. The telescope of the transit circle has a focal length of about three feet. The circle was graduated by Gambey of Paris.

CHEMICAL LABORATORY.

The whole lower story of Williston Hall, eighty feet by forty, is appropriated to a Laboratory, both for lectures and for analysis. These rooms have been fitted up with a valuable apparatus suitable for an extensive course of Chemical experiments.

CABINETS OF NATURAL HISTORY.

The College has now two large buildings, two stories in height, devoted to Natural History. The following collections are placed in them:

1. IN THE OCTAGONAL CABINET.

In the lower room, forty feet in diameter, is placed the *Woods Geological Cabinet*, which contains 20,000 specimens of American and foreign rocks and fossils.

The upper room is devoted to the *Shepard Mineralogical Cabinet*, containing some 6,000 specimens of minerals, of the choicest character, fully arranged and labeled for study. Here also is displayed the largest collection of Meteorites in the world, not excepting that of the Imperial Cabinet at Vienna.

2. IN THE APPLETON CABINET.

This building, erected in 1855, by the trustees of the will of the late Samuel Appleton, is one hundred and ten feet long, and forty-five feet wide, with a lecture room attached. The lower story contains the *Ichnological Cabinet*, presenting some 9,000 examples of tracks in stone. The upper room is devoted to the *Adams Zoological Cabinet*, containing 2,500 specimens of 700 species of vertebrated animals, 8,000 species of shells, 5,000 species of articulated animals, and 200 species of radiated animals; and an Herbarium, of more than 4,000 species of dried plants with the cuttings and seeds of tropical plants and trees. A collection in Comparative Anatomy has also been commenced, which, at present, consists mainly of the skeletons and osseous preparations of many of the vertebrate animals of this vicinity.

THE DICKINSON NINEVEH GALLERY.

In 1857, Enos Dickinson, Esq., of South Amherst, added a room to the Woods Cabinet, for the reception of the large collection of specimens obtained by Dr. Henry Lobdell from the ruins of ancient Nineveh and Babylon. Six large sculptured slabs are placed in the walls as they originally stood in the palace of Sardanapalus at Nimroud. Above them, twenty-five fresco paintings of other figures found in the same ruins have been added. During the past year, through the generosity of Hon. Geo. H. Gilbert of Ware, Mass., and other gentlemen, the collection of Indian relics has been greatly increased. The number of specimens which it now contains is more than 2,000, and it well represents the stone period of New England history.

The Society of Inquiry has a collection of articles, mostly sent by missionaries, illustrating the habits of various nations.

WILLISTON HALL.

This edifice, erected by Hon. Samuel Williston, is appropriated to the following purposes: The lower story is the Chemical Laboratory. The second story consists of two rooms for the meetings and libraries of the Literary Societies. The third story forms a spacious hall for the meetings of the Alumni of the College, and other purposes.

GYMNASIUM.

This building was erected in 1860–1, and is furnished with ample and complete apparatus for gymnastic purposes. It is two stories high, with a good basement, and in connection with the College grove and play grounds in front of it, offers uncommon opportunities for physical exercise, culture and recreation.

PHYSICAL CULTURE.

This department was established by the Corporation, August, 1860, and is called "The professorship of Hygiene and Physical Education." Its design is to secure healthful daily exercise and recreation to all the students, to instruct them in the use of the vocal organs, movements of the body, and manners as connected with oratory, and to teach them, both theoretically and practically, the Laws of Health. This daily physical training is a part of the regular College course. The Professor is an educated physician, and has not only a general oversight of the health of the College, but the students have the privilege of consulting him without charge. While the Gymnasium will furnish opportunities for the highest physical training, the required exercises will be such as can be performed without undue effort or risk of injury. The students almost universally take great pleasure in this department, and its good effects have surpassed the most sanguine expectations of its projectors and friends. In addition to the regular Gymnastic exercises, military drill has been instituted to assist in the physical training of the College.

SCHOLARSHIPS.

Several Scholarships have been established in the College, and are now available on the conditions specified by the donors.

Two or three of these were founded by the bequest of Rev. Dr. Moore, the first President of the College, the receivers to be nominated by the

Brookfield Association of Ministers; two or three others under the will of the late Asahel Adams, Esq.; one from Hon. Levi Russell; six by Samuel A. Hitchcock, Esq., of Brimfield, Mass., who gave the College $10,000 as a foundation for the purpose, one by Rev J. L. Merrick, of South Amherst, and one by Mrs. Sarah Tuttle of Wayland, Mass. In designation and annual amount, these are nearly as follows:

The Moore Scholarships, $140 each; the Adams Scholarships, two of $50 each, and one about $20; the Russell Scholarship, $60; the Hitchcock Scholarships, $100 each; the Persian Scholarship of $120; the Tuttle Scholarship, $60. Besides these, there are three State Scholarships, as conditioned by the Legislature of Massachusetts.

PRIZES.

Prizes for Excellence in Writing and Speaking. For Composition, to the Senior class, first prize, twenty-five dollars; the second, fifteen dollars. To the Junior class, first prize, twenty dollars; and the second prize, ten. For Declamations, to the Sophomore and Freshman classes, each, first prize, ten dollars; second prize, five.

The Hardy Prizes for improvement in Extemporaneous Speaking. These are given by Alpheus Hardy, Esq., of Boston, and are as follows: First prize, fifty dollars; second prize, thirty dollars; third prize, twenty dollars.

Greek Prizes. 1. The Mather Prizes. Given by Henry Mather, Esq., of Binghamton, N. Y.; forty dollars for the best, and twenty dollars for the next best examination, both oral and written, in the Demosthenes, Plato, and Homer's Iliad, read in the College course.

2. The Strong Prizes. Established by Alexander Strong, Esq., of Boston; thirty dollars to the member of the Freshman class whose standing is the highest in Greek at the close of the year, as determined by the marks for all the recitations and examinations of the department; and thirty dollars to the member of the same class who shall have made the greatest improvement in his standing during the year.

Latin Prizes. Junior prizes, thirty dollars for the best, and twenty for the next best examination, both oral and written, in the Latin of the College course. Sophomore prizes, ten dollars for the best, and five for the next best written translation into Latin of an assigned passage from some English author.

Walker Prizes. For the best examination, both oral and written, in the mathematics of the year, to the Sophomores a first prize of thirty dollars, a second of twenty, and a third of ten; to the Freshmen, a first prize of twenty-five dollars, and a second of fifteen dollars.

Phi Beta Kappa Prize. A prize of forty dollars given by the Phi Beta Kappa Society to a member of the Society for proficiency in the studies of the philosophical department during the Senior year, in such direction as the Faculty may from year to year determine.

Porter Prizes. Established by Eleazar Porter, Esq., of Hadley. 1. A prize of sixty dollars to the candidate who passes the best examination for admission to the Freshman class. Together with the name of the successful candidate, the school at which he prepared for College will be published in the Catalogue.

2. A prize of thirty dollars for scholarship in Natural Philosophy, (including Mechanics and Physics,) to be awarded at the close of Junior year to the student whose standing is highest, as determined by the marks for all the recitations and examinations of the department.

Woods Prize, for general culture and improvement, given by Hon. J. B. Woods, of Enfield. A prize of sixty dollars (in the words of the donor),

"To be awarded at the close of the College course to the member or members of the Senior class whose conduct has been the most meritorious in regard to punctuality, application to study, observance of law and order, courtesy to officers and fellow-students, and faithfulness in every duty; and who with hearty submission to the will of God as indicated in his revealed word and the physical and mental laws of their being, have, during their College course, made the most of their time, talents and opportunities in developing and improving their whole character, physically, intellectually, socially and morally, as students and gentlemen."

Butler Prize. A prize of fifty dollars for the best comprehension of Butler's Analogy, including the Lectures and explanations of the recitation room. The award to be made from the records of the recitation room, and from special examinations oral and written at the end of the year.

Sawyer Prizes. Two prizes given by E. H. Sawyer, Esq., of Easthampton, Mass., to be awarded in the department of Physical Culture.

1. A prize of thirty dollars to be awarded to the candidate who passes the best examination in Anatomy, Physiology and Hygiene.

2. A prize of thirty dollars to be awarded for excellence in physical training, to that class which shall, at an appointed trial, show the best train-

ing and discipline in Gymnastic Exercises. This trial shall not be so much for exhibiting extraordinary feats in a few individuals, as for complete uniformity of action and perfection of discipline in a whole class of students. All unexcused absences from the regular exercises of the term, and improprieties of conduct, either in individuals or the class at Gymnastic Exercises, as well as known violations of the Laws of Health at any time, shall detract from the qualifications for the prize; and all marked proprieties of conduct, as well as special improvement and efficiency of drill, will receive their appropriate merit.
